Leese Advantage

Our organization is committed to a quality centric culture and can produce one part or thousands of parts to your detailed specifications. Our qualified sales and manufacturing staff are dedicated to providing cost competitive solutions that are delivered to you on time, every time. Ultra-precise state-of-the-art machining and inspection guarantee consistent quality. This highly specialized equipment combined with our unique skill set and experienced staff allows us not only to meet but exceed your expectations.

Leese offers several services in addition to precision machining. To achieve our precision machine, we utilize 13 CNC Machines (6 Mazak Lathes, 6 Mazak Mills and 1 Precihole deep hole drilling machine). We offer the following value-added services as well.

Custom Thermal Heatsinks

Assembly Solutions

Welding Fabrication

In-House Delivery

Inspection Services

Conventional EDM Services

Please see the reverse side for a complete equipment list and details.
